Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1-12 are rejected under 35 U.S.C. 102(b) as being anticipated by either MacIntyre et al. (U.S. Patent No. 5,135,845) or Hinz et al. (U.S. Patent No. 5,254,455).

Each of MacIntyre et al. and Hinz et al. disclose a silver halide photographic material comprising a support having thereon at least one silver halide emulsion layer containing at least one dye respectively represented (column 2, line 25+ in '845; column 2, line 15+ in '455) by formula (I) inclusive of the instant formula (I) in claim 1 and formula (II) in claim 7.

3. Claims 1-12 are rejected under 35 U.S.C. 102(e) as being anticipated by either Nakamura et al. (U.S. Patent No. 6,458,524) or Hioki et al. (U.S. Patent No. 6,365,335).

Each of Nakamura et al. and Hioki et al. disclose a silver halide photographic material comprising a support having thereon at least one silver halide emulsion layer containing at least one dye respectively represented (see examples in column 11+ of '524; see examples in column 13+ of '335) by formula (I) (see abstracts of both) inclusive of the instant formula (I) in claim 1 and formula (II) in claim 7.

Art Unit: 1752

The applied reference has a common assignee/inventor with the instant application. Based upon the earlier effective U.S. filing date of the reference, it constitutes prior art under 35 U.S.C. 102(e). This rejection under 35 U.S.C. 102(e) might be overcome either by a showing under 37 CFR 1.132 that any invention disclosed but not claimed in the reference was derived from the inventor of this application and is thus not the invention "by another," or by an appropriate showing under 37 CFR 1.131.
